

# BEYOND WELLNESS

## Teaching Facility Consent

---

We are pleased to offer post graduate students a place to complete their clinical preceptorship hours for Physician Assistant, Nurse Practitioner, Midwife, BCBA, Speech Language Pathology programs. Postgraduates have a strenuous number of hours anywhere from 6 months to 2 years to complete BEFORE they can work solely on their own licensure independently.

In an effort to continue to support our postgraduates with their clinical hour requirements, we MUST receive consent from you in order to have them in the room or via Telemedicine visit.

**The decision is completely optional, your choice, and we support whatever decision is made.**

By Signing this sheet, I acknowledge and agree to allowing the postgraduate to accompany my healthcare provider in my service(s) while a patient at Beyond Wellness.
